

The Idaho Water Resources Research Institute (IWRRI) and the Water Resources Program

# Water Resources Seminar Series

**Title: The Consortium of Universities for the Advancement of Hydrologic Science Inc. (CUAHSI) operated HydroShare data and model repository**

**By guest lecturer**

**David Tarboton**

Utah State University

For more information: [abean@uidaho.edu](mailto:abean@uidaho.edu)

**November 27  
10:30am CNR 14**

HydroShare ([www.hydroshare.org](http://www.hydroshare.org)) enables researchers to more easily and freely share products resulting from their research, not just the scientific publication summarizing a study, but also the data and models used to create the scientific publication. HydroShare accepts data from anybody, and supports Findable, Accessible, Interoperable and Reusable (FAIR) principles. Join us for a presentation describing the tools, methods and practices for data and model publication.

***This event is proudly sponsored by:***

The Seminar Series is open to all water professionals, researchers, students and interested public
